

J Geiger Up-Rollers feature proprietary hardware (R Series Jamb Mount Brackets) and a sleek, self contained tension housing that pulls against a motorized roller to keep fabric taut. This system is ideally suited for vertical or angled bottom-up applications, where privacy is desired at the floor level.

Hardware

Shade brackets (R1 and R2), spring box, and hem bar can be anodized or custom powder coated

Shade Dimensions

Standard tube accomodates 19.75-50" shade width; custom solutions available

Power

Wired and rechargeable battery motors available

Integration

System integrates with Savant, Control 4, Crestron, and Lutron
